## REVIGO Gene Ontology treemap

TRE VIGO Conto Chiclogy troomap						
	negative regulation of type I interferon production	negative regulation of innate immune response	peptidoglycan ir	ganism of cell wall n other organism	peptidoglycan	primede novoprime NAD biosynthesis from tryptophan
				nulti-organism metabolism	metabolic process	cell wall macromolecule metabolism
	negative regulation of type	positive regulation of protein K48–linked ubiquitination		response to	stilbenoid	cell wall organization or biogenesis
е	negative regulation of mitochondrial electron transport, NADH to ubiquinone		response to biotic stimulus r	response to biotic stimulus		cytolysis
